# Zone Change Requested for Saks Building

Today at 4 p.m. city planning commission will hold its second hearing on the application of the National Hotel Corporation, operators of El Mirador hotel for change in zoning from R-4 to C-2 on their frontage on North Palm Canyon drive.

The zoning application covers the area bounded by Palm Canyon, Tachevah and Indian avenue and it is the desire of the Hotel corporation to make this property available for construction of the proposed Saks-Fifth Avenue Palm Springs store.

HILTON MCCABE, representing the property owners, filed the application in their behalf and following the present hearing. See ZONING, Page 7

I woke up early today To be the queen of the May But Mrs. G said: Go back to your bed, With that beard you're not OK.

Anyway, it's May... Was going to slice a stick into the ground in the center, tie some gay ribbons on it, and dance... But couldn't get anyone to join me... They were all afraid if I did, no one would stay through May.

ALWAYS have thought that opposites attract each other but the other night at the Mexican Dinner staged as a benefit for the Boys' club maintenance fund, two hams got together... I won one... But, having had ham for lunch that day, Mrs. G. told me to chuck it in for the club and let Bob Morris auction it off... He did a swell job and it was a duel with Doc Bill Aiken and Doc Charles Baldwin both trying for the big bite... Doc Baldwin won and the Boys' club is going to have a ham dinner... He had ham for lunch, too... So he gave it to the club... It cost him \$28... But it's appropriate, I've seen pictures of pigs being served with an apple in their mouth... Ham is part of a pig and Baldwin is an apple.

TRYING TO horn into Palm Palm Canyon drive from a side street the other day gave me an idea... It's tough when nobody stops to let you in and you have to wait until some pedestrian strides forth into the crosswalk and traffic stops... See THIS SIDE, Page 3

# VILLAGE HONORS HOPPS AND AIDES FOR GREAT SUCCESS OF CIRCUS

Stewart Hopps, wealthy winter colonist and president of the 1952 Desert Circus and Carnival of Stars, received wholehearted tribute from his fellow Villagers Tuesday noon at the Chi Chi when he was honored with a luncheon sponsored by the Chamber of Commerce.

The affair was the main event of Stewart Hopps Day, so proclaimed by Mayor Charles Farrell in recognition of Hopps' outstanding service to the community in putting on the city's biggest and best Desert Circus.

her husband was Gerry Hopps who took an active part in making the Desert Circus the tremendous success that it was. Hopps was introduced by Mayor Charles Farrell who praised his successful efforts in putting the town's biggest show on the road against considerable odds.

The circus, it was pointed out by Stanley Rosin, president of the Chamber of Commerce, was apparently a dead horse which had apparently run its last race until Hopps got in the saddle and rode it to a smash hit finish. Farrell presented the circus president with a silver tray in behalf of Palm Springs civic organizations who joined forces to honor Hopps and the members of his committee with silver trophies. Bill Dunkerley, executive manager of the Chamber of Commerce presented Hopps with a silver cigarette box from the Chamber and a scroll commemorating the 16th annual Desert Circus and its president.

# LIQUOR LICENSE FEES BOOST CITY FUND \$7,822.50

Palm Springs received \$7,822.50 as its share of liquor license fee earnings for the six month period ending February 29, William G. Bonelli, fourth district member of the state board of equalization announced this week.

In the state the total was \$5,410,534, all of which was distributed to cities and counties in the state.

Riverside county received \$59,213.29 from the fund. Of this amount unincorporated areas such as Cathedral City, Desert Hot Springs, Rancho Mirage, Palm Desert and the intervening areas, received \$19,897.53 which went to the county.

Palm Springs take of \$7,822.50 was the second highest among county cities. Riverside was first with \$12,675.63. Indio and Blythe were third and fourth.

Perris was the driest spot in the county with receipts of \$680 although San Jacinto was not far ahead.

Allotments to cities are based on the amount of license fees collected within their limits.

# GUIBERSON WATER PLEA NOW IN STATE'S HANDS

Fate of Samuel Guiberson's application for water for his proposed cement mill northwest of town was in the hands of State Engineer A. D. Edmondson today.

Edmondson, sitting for the state division of water resources at Riverside, Tuesday completed the hearing on the application in which local and Coachella Valley water companies were present to protest.

ATTORNEYS for these companies predicted freely yesterday that Edmondson would reject the application. Several of them waived cross-examination of Guiberson's representative, Harold Pierce; they said he had "failed entirely" to make a showing that there is unappropriated water from the White-water River, Snow Creek and Lamb Creek.

Assistant State Engineer Gordon Zander announced as the hearing began that the application would not be granted unless Pierce showed there is unappropriated water from those streams.

The Guiberson forces, who won a bitterly-contested County-wide election three years ago on the question of whether Guiberson would be granted zoning for the cement plant, appeared to be somewhat disorganized yesterday.

PIERCE showed little else but some photographs of some water flowing over the desert to prove that there is unappropriated water. See WATER, Page 2

# Striping of Indian Avenue to be Completed this Week

Work is expected to be completed this weekend on marking the newly completed Indian avenue into a four-lane highway. City Manager Russell Rink said Monday.

Contract has been let to a Los Angeles firm for marking the street to control traffic north and south.

There will be four driving lanes and two parking lanes, for parallel parking, one on each side.

The striping of the street will eliminate traffic hazards north and south of the narrow spot before the Indian baths where

traffic converges into one lane either way and northbound cars too often fail to move far enough over to the right side after reaching the wide road again.

In the meantime, Chief of Police A. G. Kettmann said that the new wide highways is not going to be a speedway. He said the 25-mile zone will be strictly enforced and that the thoroughfare will be patrolled to cite violators. Temporary signs have been erected at both ends of the project and permanent signs will be erected when the striping is finished.

# Reservation Zone Plan to be Aired May 14, 28

## Master Plan on Section 14 Effective Soon

**Planning Board Outlines Changes Along New Streets**

The dates of May 14 and May 28 have been set by the city planning commission, according to Charles B. Woodman, planning commission director for hearings on rezoning in Section 14.

This plan, under study for several years and acceptable by the Agua Caliente Indian tribal council, now that the street plans have been settled, would permit the rezoning plans to fit the now established street plans.

**THE SQUARE MILE** area, under consideration for proposed rezoning in Section 14, covers the area from Indian avenue to Sunrise Way and Alejo road and Ramon road.

Rezoning proposed is C-2 and C-3 on Indian avenue and C-2 in the westerly quarter of McCallum way or "Tahquitz Drive." Hotel zoning is proposed on McCallum way, extended through Section 14. Also hotel zoning is proposed abutting Indian avenue proposed C-2 and C-3.

Multiple family dwellings are proposed along Sunrise Way and Ramon road and in westerly third of Section.

**20 ACRES** of trailer park sites are proposed, approximately in south east quarter of the north-west quarter in Section 14.

Proposed C-1, restricted business zone of five acres in the southeast corner of Section 14 by the Fire station.

A quarter mile strip is proposed in Section 15 to be rezoned from C-3 to C-2 west of Indian between Andreas and Arenas roads.

**SCROLL OF THANKS**—VISA students (Visiting International Students Association) sponsored by Rotary Clubs in District 162, thankful for the opportunity of studying in this country, present Rotary District Governor W. Fred Lavelle a beautifully embossed scroll signed by 54 foreign students. Making the presentation above at the Shadow Mountain Club are Vladimir Almendinger, 23, Czechoslovakia, sponsored by Rotary of Orange, and Miss Susana Yen, 21, Redlands University sponsored by Rotary of Redlands. Miss Yen, a native of Shanghai, China, said her parents are refugees from Communist-held China and are now living in Siam. Almendinger's parents are refugees from his native country and are presently residing in the Western zone of Austria. (Desert Sun Photo).

## Member Drive for Chamber Off to Speedy Start

First week's spurt in the Palm Springs Chamber of Commerce director's new membership drive has resulted in 27 new members according to report yesterday.

Chairman by John Wood, twelve teams headed by Chamber of Commerce directors Florian Boyd, Earl Coffman, Tom Kiely, substituting for Coffman in his absence, Francis Crocker, Fred Ingram, Oliver Jaynes, Bob McKenzie, George Olman, Frank Prince, Stanley Rosin, O. A. Torgerson, John Wood and George Gannon with three workers each on their teams have been out all week telling the non-member businessmen of the Chamber's promotional work in behalf of the city.

**ENCOURAGED** by the first week's results which has averaged better than four new members daily during the first week, the new membership teams are out this week to sustain the pace set the first week of the drive.

Chairman Wood stressed the fact that any non-member not approached during the drive should contact the Chamber of Commerce office for information on membership and any member knowing of prospective members should feel free to solicit their membership and report the results to the Chamber of Commerce office.

Prior to the Directors' new membership drive last week, the Chamber of Commerce's membership for 1951-52 totaled 378 members and with the first week's results now well exceeds 400.

## Through May Many Local Firms Announce Plans

"The stay through May" campaign this year far exceeds its sponsors' expectations.

Many leading hotels and apartment houses as well as restaurants and night clubs will remain open during the coming month and others are planning to remain open all summer.

More and more the year round "business as usual" comes to the desert as each year sees desert living more enjoyable, and the thing to do when the world's present day cares become burdensome.

Page eight today lists many of the places staying open until June 1 this year.

## DISTRICT ROTARIANS NAME ESCONDIDO MAN

Demotion of District Governor W. Fred Lavelle of Covina and introduction of Delmar Gray of Escondido, nominee for the office of governor of District 162, Rotary International for the coming year, marked the close of a busy four-day conference in the Village last week.

Rotarians from more than 50 clubs in five southland counties were here for the sessions, more than 2800 members, wives and families, attending.

The sessions ended on Sunday.

**FOUR PLENARY** business sessions were held during the four day conference with leading Rotarian guest speakers addressing the conference. Introductions of See ROTARY, Page 2

## The PUBLISHER'S Corner by OLIVER B. JAYNES

**SOME PEOPLE** seem to have gained the impression that the same policy prevails for both of Palm Springs weekly newspapers because they are both issued by the same publishing company. Such is not the case. At the time the Palm Springs Publishing company was established and the two newspaper plants consolidated it was announced that the editorial policies of the two publications would be independent of each other. While experience taught that it was economically impossible to operate two adequately equipped plants in Palm Springs, the desirability of editorial independence was recognized. It seemed then—and still does—that the best interests of the community as a whole would be best served by preserving the editorial independence of the two local newspapers.

As publisher of The Desert Sun, therefore, I wish to make it clear that the opinions expressed by the Palm Springs News are not mine. Nor do I concur in many of them. I consider the recent effort of the News to defend the freedom of the press and criticize the city government as its prerogative. However, I believe that the method of approach is not to the best interests of a resort community like Palm Springs which should always present a friendly atmosphere. If we must hang our dirty linen out on the line, we should do it in the summer when it will not be seen by so many visitors and dry more quickly.

At a time when so many freedoms are being taken away from us, we should, of course, defend to the last ditch one of the most important of all: the freedom of the press. Editors all over the country are concerned over the inclination of public officials at all levels to withhold public records; they discussed the subject at their national convention last week. Newspapers should recognize, however, that this privilege is conferred upon them only as the representative of the people who are entitled to public information and freedom of expression for their own protection. By the same token, public officials should bear in mind that representatives of any medium—whether it be newspapers, magazines or radio—are entitled to public records and free to give their views concerning them.

There is little doubt that the requirement of residing in a councilmanic district for 54 days prior to an election has not been adhered to strictly in recent elections. This practice must, of course, be stopped. As long as the City operates on the district plan, voters must comply with the residential requirement.

The Desert Sun has advocated the appointment of a full-time city attorney for more than a year. This position is not however, based on any particular criticism of our present city attorney. Most people recognize that it would be the best arrangement for the city. The only question is whether or not the city can afford a full-time city attorney. We believe it can.

It has been the policy of this writer to call the attention of our local residents to matters, including city governmental affairs, which adversely affect the community. I have always felt that it is the duty of a newspaper to bring such matters to light. It is then up to the people to act. If they fail to do so, there is little the newspaper can do about it. I believe that my criticism has always been fair and constructive—and that is the way I expect to keep it.

## Police Offer Free Property Check Again This Summer

Annual free check of vacant homes during the summer months is getting underway. Chief of Police A. G. Kettmann reported this week. He asked homeowners who plan to be away during the summer and will close their houses or business establishments, to come to the police station and fill out a vacant property card.

He said this public service, offered every year, is free of charge to Palm Springs property owners. Information on the persons in charge of the property, the owners' summer address and telephone number, and other

The donations will be used by 270 totally blind persons in the two counties or made into rags for rag rugs and the like.

President Paul Summers of the Lions club and Fire Chief William Leoncio urged all Villagers to cooperate.

## Dr. Reid Wins Writ Against Local Hospital

Branch of Court Hearing Set for May 5 in Indio

Desert Hospital district was ordered to answer in Judge Clarence Kincaid's Indio branch of county superior court next Monday to a writ of mandate obtained last week by Dr. Henry S. Reid.

Dr. Reid last week filed suit asking the writ to compel the Desert Hospital District to admit him to practice at the institution.

HE IS REPRESENTED by Attorneys Hilton McCabe and Rex Hardy of Palm Springs. The writ was obtained in Judge O. K. Morton's court at Riverside last Friday and the judge made it returnable May 5.

It orders the hospital to admit Dr. Reid to practice or show cause for refusal.

Named with the hospital are its officers and board—by A. T. Morrison, president; Florian Boyd, secretary; and Dr. William Alken and Kenneth Kirk.

IN HIS PETITION to court, Dr. Reid said that he is arbitrarily, unreasonably and illegally barred from the hospital.

He contends that the hospital is supported by taxes collected from all taxable property in the district.

water. And Zander said the state division of water resources could not give much weight to them unless they were supported by substantial engineering data.

Pierce said he was acting jointly with Guiberson, but Zander declared the state's records have nothing to show that Guiberson has an interest in the application. Zander said the only applicant of record is Pierce.

GUIBERSON's present attorney, Clifford Enger of Beverly Hills, attended the hearing, but he admitted he was not clear about Guiberson's relationship to the application.

He explained that Guiberson's previous attorney, Z. L. Cobb, had died and that the papers relating to the Guiberson White-water Cement Company were "impounded in Cobb's estate" and not now available. And to make it worse, he said, Guiberson is sick. Guiberson, a millionaire oil man, lives now in Beverly Hills. He was not present.

Enger said Guiberson still intends to build the cement plant. Pierce testified that the Guiberson Whitewater Cement Company is in process of being organized. He testified, under questioning, that he has been an employee of the company.

THE PROTESTANTS were the Coachella Valley County Water District, the Palm Springs Water company, the Whitewater Mutual Water company, the Southern Pacific Railroad company, and the Bar Bell Ranch. Pierce admitted, under their questioning, that he is not sure that he or Guiberson holds access rights to the points from which he expects to divert water from the three streams.

## Chicken Thieves Active in Village

Chicken thieves have been active in Palm Springs over the past week with reports to the Palm Springs police of theft of two chickens from outside the kitchen of Irvin Schuman's Chi Chi night club.

## Grand Jury

Dismissed After 15 Months Study

Riverside county's 1952 grand jury was dismissed last week after 15 months of study which resulted in one conviction of bribery and the resignation of four key officers in Sheriff Carl Rayburn's department.

Its report on county offices found most of them operating efficiently. The jurors, however, censured the sheriff's department.

Judge O. K. Morton of superior court, who received the jury's report said the resignations had paved the way for restoration of law enforcement in the county.

## Dr. McRory

Here from S. F. to Visit Family

Dr. O. B. McRory, who recently purchased the Mission Pet Hospital in San Francisco, was in the Village for a short time last week to visit Mrs. McRory and children and to look after affairs at his Small Animal Hospital on Sunny Dunes road here.

Dr. McRory returned to San Francisco where his family will join him when the local schools close.

During the summer, while he is at his San Francisco hospital, the local hospital is in charge of Dr. A. Echebuer. The McRorys will return to the Village in the fall.

Hopps expressed the hope that the press party given at the Los Angeles Press Club just prior to the circus, would be continued by Palm Springs as a valuable contribution toward an entente cordiale between Palm Springs and the metropolitan press. He also praised the local press which gave whole hearted support to the circus, and Priscilla Chaffey, director of publicity for the circus, in collaboration with Jan Guthrie, of the Chamber of Commerce.

CREDIT FOR GIVING a bang-up testimonial luncheon honoring circus president Hopps goes to Charles Valentino who got the idea of presenting the circus trophies at a civic function, rather than individually. It is the first time in the 16 years of circus history a retiring president has been so honored.

## Phil Boyd Heads Warren Backers

Philip Boyd, Riverside, former chairman of the Republican Central Committee and former assemblyman, has accepted chairmanship of the Riverside County Warren for President committee. It was announced this week.

It was stated Boyd's committee will be increased with additions to its membership from practically every community in the county.

## Traffic Laws

Judicial Panel Here May 12

A panel discussion, which leaders in the traffic field are being invited to attend, will be held on May 12 at 2 p.m. in the courtroom of the Palm Springs city offices.

The meeting is being called by the traffic committee of the State Judicial Council to test public reaction to the tentative proposals agreed on by the committee members, Judge Eugene Theriault of the Palm Springs Judicial District Court and a member of the committee, will preside. All interested persons are invited to attend.

Similar panel discussions will be held in various localities throughout the state. Suggestions offered will then be considered by the council's traffic committee when it meets to determine final recommendations to be made.

Among the most important of the objectives sought to be accomplished by the tentative proposals of the committee are to reduce the number of violations of the promise to appear, to deter violators from committing further infractions of the vehicle Code, to achieve greater uniformity in the assessment of penalties, and to standardize the forms used as traffic citations.

The study by the Judicial Council is being undertaken at the special request of the legislature.

## Action on Fair Fund Postponed

The State public works board Tuesday allocated \$381,150 for capital improvements to eight county fairs—but left out Riverside County's fair at Indio.

The public works board did not deny Riverside county's request for an allocation of \$180,000. It postponed action on the request.

There seemed to be a good chance that the board would grant part of the request at later meetings this year. For each of the past several years the board has allocated amounts in the neighborhood of \$50,000 to the County fair.

## CV Building Code Hearing on May 20

May 20 was set by supervisors Monday as the date for hearing on the proposed county building code for unincorporated areas in the Coachella Valley desert section including the territory immediately adjacent to Palm Springs.

## Tacheva Flood Survey Started by Commission

Veteran desert engineer, Frederick N. Cronholm has started a two-week survey of Section 10 for Zone Six, county flood control.

Willard R. Hillery of Cathedral City, chairman of Zone Six, said that the survey will cost approximately \$700 and paid from the zone's special Tachevah Creek funds.

"Tachevah Creek is a danger spot to Palm Springs," said Hillery, "during storms water pours down from the mountain slopes above the city limits, across Palm Canyon drive, running down Alejo road, into Section 14 of the reservation."

"Better control is needed now that Indians lands in Section 14 have been allotted and plans are up for subdividing this area," Hillery said. "Time element is important and the present survey is being made for joint study and possible action with the Palm Springs Planning commission and City council."

**SAFE WAY, TOO**—Mrs. Floyd V. Daniel, Desert Hot Springs, who won a \$20,000 prize in a Safeway Store contest, chose the safe way to invest it—at the Coachella Valley Savings and Loan. President Bill Smith is accepting it and congratulating her. (Sun Photo).

## Winner of National Contest Salts Prize Away Safely

Mrs. Floyd V. Daniel of Desert Hot Springs, recent winner of \$20,000 cash as first prize award in General Mills national contest for their Betty Crocker "Stir-N-Roll" recipe, reveals herself as a very practical woman.

After paying the Federal government the required tax, she placed the remaining balance in an account with the Coachella Valley Savings and Loan Association where it will earn her 3% per annum.

The attractive housewife whose husband is a carpenter, won the first prize in the national contest

in competition with several hundred thousand other entrants throughout the country.

Recipient of considerable national publicity, Mrs. Daniel is carrying on her daily life as in the past and other than her moment of enthusiasm when presented with the award last week by executives of General Mills, Wesson Oil and Crossley corporations in the Palm Springs Safeway Store, remains untouched by her streak of good fortune. Yes, Mrs. Daniels is a very practical woman.

Judge Theriault suspended \$200 of the fine on condition that Bass pay Miller's doctor bills and refrain from breaking any law here for one year.

That gave me the idea for a new intersection . . . When they see business . . . Am going to hire some kids . . . Then start a plan for easier traffic . . . Will have autoists who have trouble crossing or getting into P. Canyon drive subscribe to the service . . . For a nominal fee they'll get a sticker for their windshield . . . I'll place two youngsters at each

AM GLAD to see that they are going to put stripes on Indian avenue . . . That narrow spot by the Indian baths is a hassle . . . Northbound cars forget to get back on to their own side after coming out of the Narrows and give southbound drivers a bad time . . . Especially the impatient ones who want to pass right there . . . And trying to make a left turn is bad too . . .

You try to figure where the extreme left lane would be, start to turn and hear a loud horn . . . Some bird back of you is going further left and trying to pass . . . But it's a great street and a great improvement . . . Looks to me like a lot of business firms are going to have their rear entrances on the main street soon.

READING the Los Angeles Time the other day I noted this in the "Fifteen Years Ago" col-

LaRue Watson writes me a letter . . . Since Truman has decided he doesn't want to be president again . . . (Or, has he?) there is a rash of candidates . . . Watson wants to be different . . . So he sends this announcement . . . He is NOT a candidate . . .

## The LINEMAN'S SPURS

*Symbols of Service*

The Lineman, with his spurs, or "gaffs" as they are usually called, is an important figure in the construction and maintenance of a telephone system. It is his responsibility to see that wires and cable are properly placed, that they perform efficiently, and that repairs are promptly made when damage is done by storms or other agents.

Outside plant is an important and expensive part of a telephone system and a great deal of investment money is required to carry on expansion programs to meet the increasing demand for service . . . and revenues must be sufficient to attract this investment money.

Welcoming hospitality for the Thomas Flemings' house guests, the George Travers, seems to have speeded up the party program to a mid-season tempo. . . Parties honoring the Travers, who have been wintering in Palm

patio party for the Travers, who are from Chicago, home city of their hosts. . . Another party honoring the Travers will be given for several years. This will be a cocktail party at home.

Exotic music and decor added to the Hawaiian atmosphere when Mr. and Mrs. Stewart Hopps entertained for their house guest, Ed Leshin of Beverly Hills. . . Gardenias and other tropical flowers were featured in decor for the candle-light patio, which was the setting for the large party. . . This entertainment also was an aloha for some of Mrs. Hopps' friends, who she was seeing for the last time this spring as she will leave soon for New York to be gone about ten days. . . Then is no "end of the season" for Stewart and Jerri Hopps, two of the busiest people in California, who will commute between Palm Springs and San Francisco this summer.

### Kirks Entertain Before Ball

As a prelude to the Tennis Club's Starlight Ball on Saturday the Kenneth Kirks entertained at a cocktail party in the beautiful Fiesta Room of their home on Camino del Norte. . . Blonde Helen Kirk was an attractive hostess, in a chic creation of white net, fashioned with a voluminous floor-length skirt and off-the-shoulder bodice, embroidered with silver and crystals. . . The Kirks were introducing friends to their house guests, Dr. and Mrs. Ralph Pace, from Brentwood, and the John Murdock of Beverly Hills. . . The visitors were included in the Kirks' party at the ball, on the club's tennis courts, which were beautifully decorated and illuminated for the occasion.

In another group at the ball were Belmont and Betty Jo Sanchez, recently returned to their Village home from Long Beach. . . With them were the Brewster Morgans, from Brentwood, who have taken a home here for a few weeks.

Hosts at one of the larger tables, the Franklyn B. MacCarthys, entertained for Judge and Mrs. Clarence Kincaid of Los Angeles, who are staying at the Sun Lodge, Shadow Mountain. . . The Jack Kenastons, included in one of the larger parties, were making tentative plans to go to San Francisco this week if their horse, Danae, is entered in the Golden Gate race meet.

In a party with the John McClures were his brother and sister-in-law, the Edmund McClures of Brentwood; also their son-in-law and daughter, Mr. and Mrs. William West of Los Angeles, here on a visit.

The Sam Taylors were exchanging greetings with long-time friends and newcomers, who were congratulating them on the success of the ball, which was the last formal event of the season at the club, although it will remain open with limited service through part of May.

Honor of planning the effective setting for the ball, which included a background of boughs and branches of trees, sprayed and lighted in glamorous colors, went to Mimi Sawtelle. . . In expressing thanks for a huge bouquet of roses presented to her, she said she hoped to see the members and their friends back at the club next October.

### Morris O. Andersons Host Brunch

Hedges of white oleanders added charm to the setting for the large brunch party given Sunday by the Morris O. Andersons

and after guests served themselves they formed groups at tables on the spacious lawn, and were entertained by Guadalajara musicians.

Enjoying the festivities were the Andersons' house guests, the Henry Duchins, Seattle, and the James Downings, Beverly Hills. . . The evening before the brunch party the Andersons entertained at the Tennis Club's Starlight Ball, where the accompanying picture was made.

On the party program of Mrs. Anna O'Donnell is a cocktail buffet that she will give May 11 at her home on Vereda del Norte. Later this month she will go to Hollywood and will spend about two months there before she starts on a trip to New York. . . Also she will visit Dallas, Texas, her former home city, before she returns to Palm Springs in October.

Holiday House with its spacious swimming pool and tropical patio took on a Hawaiian atmosphere for the cocktail party given by the Lloyd Whales and the Herbert Burns, for more than a hundred guests. . . Strolling musicians played Hawaiian numbers and orchids and other flowers flown in from Honolulu added an exotic note to the decor. . . A feature of the entertainment was a beautiful water ballet in the illuminated pool, given by a group of University of Redlands girls.

Missing from the party scene this spring are the popular Villagers, George K. and Rebyl Zain, but they are following "doctor's orders" to lead the simple life for a while, with the hope of improving the condition of G. K.'s eyes. For the same reason they have given up the planned trip to Europe and will spend part of the summer in mountain resorts.

## Mrs. Crocker First Leader of Delphians

Mrs. Francis F. Crocker, is the first president of the Palm Springs chapter of Delphians which was organized here this week.

Other officers are Mrs. Warren Strebe, vice-president; Mrs. B. J. Benjamin, secretary, and Mrs. Anthony Burke, treasurer. Mrs. Kota Henderson is chairman of the Seminar Board, assisted by Mrs. Lyle Harper and Mrs. Don Floan.

Mrs. Dean Hunter, field director, presided at the organization meeting held Tuesday morning in the Parish House of St. Paul's in the Desert.

According to Mrs. Hunter, the National Delphian society is not a card club, not a social or a "paper" club, not a group devoted to charity or welfare work. It is, she said, organized for the personal benefit of its members. They specialize in improving themselves.

Every chapter participates in the discussion seminars conducted by the chapter. They will be conducted by Mrs. Hunter May 14 and the regular meetings, held twice monthly, will start September 24.

Music and dancing added a memorable note to the cocktail buffet party given recently by Sam and Beverly Taylor in the patio of their attractive home on Calle de Rolph. . . A feature of the patio decor was a float in the swimming pool, with a "cargo" of bird-of-paradise blooms, and other spring flowers were combined in decor with effective illumination. . . Villagers and their house guests made up a large festive party and some of them were seeing the Taylor home for the first time.

## Church Wedding Unites Miss Potter, George C. Bell

Marriage vows were exchanged by Miss Mildred Potter and George C. Bell, Jr., at a ceremony Sunday afternoon in the Episcopal Church St. Paul's in the Desert, which was effectively decorated with white stock and gladioli. The Rev. William A. Blonden, Jr., officiated at the service, which was followed by a reception in the home of the bride's mother, Mrs. Mildred Southwick Potter, 1185 Avenida Caballeros. The bridegroom's parents are Mr. and Mrs. George C. Bell, 2248 E. Ramon Road.

Attending the bride were her sister, Mrs. Edward Wills, as matron of honor, and Barbara Parsons and Virginia Peeler, nieces of the bridegroom. Junior bridesmaids James Seales served as best man for Mr. Bell.

A dress of white lace worn by the bride was made with an off-the-shoulder bodice, and she wore a matching jacket, an illusion shoulder length veil and carried a bouquet of white iris and stephanotis.

With Mrs. Wills' orchid colored organza dress she wore a matching hat and carried a bouquet of pale yellow carnations.

The bride was graduated from Palm Springs High School, attended Stanford University and received a degree from Emerson College, Boston. While there she was awarded a scholarship in dramatics, and played with a stock company one summer in New York. Last year she appeared with the Palm Springs Playhouse company, and in some of the plays both she and her mother, Mrs. Potter, took parts.

Mr. Bell, a member of a pioneer Palm Springs family, also was graduated from Palm Springs High, where he met his bride. Later he attended Chaffey Junior College and Cal-Poly.

Prenuptial entertainment for the couple concluded with a dinner party given by Mrs. Potter, at her home Friday, for the two families, and a similar party given Saturday by the senior Bells. After a wedding trip the couple will live in Hermosa Beach.

## Coming and Going

By AILEEN HAGERTY

When Villagers and winter colonists get together these balmy spring days the topic of conversation usually turns to summer plans and who is going where. Many of them are planning to remain here later, than usual, to enjoy the agreeable early summer months, while others join the trek to Europe, Mexico and the mountain resorts of California.

Holiday in England is on the summer program of the Anthony Burkes, who plan to leave for New York May 12 and will sail from Montreal May 28. While in England they will visit his brother and sister-in-law, the Charles Burkes, in Surrey and will spend the latter part of the summer in New England and Poughkeepsie, N. Y., former home of Mrs. Burke, who was Miss Anne Roberts before her marriage last year. They plan to return in September to their home on Wonder Palms Road.

While here on one of her occasional visits, Mrs. Dorothy Fleet of La Jolla has been staying in one of the Tennis Club villas and was included in a party at the club's Starlight ball. Later this month she will go to Lafayette, Ind., to attend the graduation of her son, Preston Fleet, from Culver Military Academy. Preston will return to California with her and he plans to enter Stanford this fall.

Visitors from San Francisco, the junior Thomas Rays are house guests of Mrs. Grace Pope and he is getting in his daily quota of golf on local courses. . . Mrs. Ray was Miss Florence McNear before her marriage about two years ago.

Shortly after the wedding of Miss Joanne Stayton and Donald M. Mackey, in Santa Monica, they came to Palm Springs to spend part of their honeymoon at the Town and Desert apartments. Mr. Mackey, who is connected with the public relations department of the Navy, has made quite a reputation for himself as a cartoonist.

## COLORFUL FARMERS MARKET SHOWS GREAT FAITH IN FUTURE OF CITY

With the opening of Mayfair Market in the Desert Farmers Market last Thursday, more than a half million dollars' investment in a new business enterprise in Palm Springs was represented.

That investment based on the strong belief that Palm Springs still has its rosier future, represented the purchase of fixtures, refrigeration and building of the entire Farmers Market as envisioned by the Silver-Stahl Corporation of San Francisco and the Paramount Refrigeration company of Los Angeles.

**MOVING SPIRITS** behind completion of Desert Farmers Market, marked with the opening of Mayfair's new 9000 square foot super foodmarket, are Nat Silverstone and Norman Stahl, executives of both companies.

In addition to the investment by Silver-Stahl and Paramount the concessionaires in the Farmers Market and Mayfair in merchandise, food and other items mounts into a staggering amount of money.

**UNLIKE MANY** who have come to Palm Springs to invest money and make a quick profit both Silverstone and Stahl have repeatedly declared that all that the Desert Farmers Market represents including the new Mayfair store "was conceived, erected and put into operation with their eyes on the future rather than the near months."

"I MEAN BY THAT statement," said Stahl, "that Palm Springs, the only worthwhile winter resort in southern California is destined for a great future and the Desert Farmers Market will be a companion in the greater success of this resort community."

Silverstone pointed out that economically the Desert Farmers market today cannot be eliminated as an important segment in estimating the day-to-day financial life of Palm Springs.

"MANY of the concessionaires, employees of the Mayfair Market and others affiliated with these enterprises have purchased homes here, others are leasing homes, have brought their children to be reared here and, most important of all, are daily patronizing mercantile establishments in Palm Springs. Most of these people were brought to Palm Springs by the opening and operation of the Desert Farmers Market."

Co-incidental with the opening of Mayfair, the management of the Desert Farmers Market issued the following statement:

"THE DESERT FARMERS Market has pledged itself to constantly seek ways and means of improving its value to the community. The investment in effort, physical and financial, is a stupendous one. And this expenditure in view of the nature of the businesses conducted (the largest number under one roof in Palm Springs) at the Desert Farmers Market must continue always if it is to remain a success and success mean the ever moving goals of attainment.

"The opening of Mayfair Market adds immeasurably to the value of the Desert Farmers Market as one of the chief economic assets of Palm Springs today."

**THE SELECTION** of the various concessionaires for the Desert Farmers Market had one aim in mind "to bring a diversification of new businesses to Palm Springs, placed under one roof and to make the over-all picture as pleasing to the shopper as possible.

Among these concessionaires one will find the finest in bakery goods prepared by Dekker's Bakery; the "top of the crop" in fruits and vegetables at the Green Basket; imported treasures from lands across the seas as typified by the "7 Seas Shops" and the delicious German and French foods prepared by two famous continental chefs.

**OTHERS ARE** Baker's Party and Novelty Shop where many items can be purchased to make that party more colorful; Seafood and meats specially prepared at the Original Bar-B-Q; Syrian Foods at the Fez; Hawaiian Imports by Walt Clark who spent years on the islands; Dirk Kok's famous San Francisco Fruit Bowl and nationally known Blum's ice cream and candies are handled at the Village Buffet.

Ed Landfield is there to serve the delicious delicatessen sandwiches or such foods to take home; the famous California drink Orange Julius is served there to quench one's thirst and there are ceramics and gifts to purchase at the Treasure Hut. Food for all diets can be purchased at the Palm Springs Health Food booth and there are many others including newspapers from the old home town.

## Palm Desert Sunbeams

By EDITH EDDY WARD

The month of May at Shadow Mountain is the "Springboard to Summer"—the season of warm sun-filled days, cool evenings, outdoor movies, moonlight swimming, and dining under the stars!

The first big event is the Dixie Ball next Saturday, May 3rd, which promises to be a night of fun with Club members participating in the amateur entertainment. The Black and White Keyboard Contest between "Tune Tantalizing" Tom Brown vs. "Missouri Waltz" Milliken should bring a lot of laughs. Another act called "Sweet Talk," to be performed by Col. and Mrs. C. Ronald Ellis, sounds like fun. Then comes the "Earliest of Hints & Girls" by the Boat Dock Darkies vs. Uncle Tom, Topsy & Eva. Uncle Tom is played by Earle Hupp and his two little daughters, Susie and Carita, are Topsy and Eva. Earl Hupp, Jr. and Karen Hooper will play the Boat Dock Darkies. "Mr. and Mrs. Sippi" in Strings against Key-board will be played by Ean-joker and Darktown Dottie Todd and that Basin Street Bassman, Hank Hudson.

The next big "Shindig" is the Fourth Annual Luau on Saturday, May 10, which will be "Aloha" to the Todds Trio. The Beach at Waikiki will be brought to SMC that night with Hawaiian entertainment and feast.

Mother's Day, Sunday May 11, the Shadow Mountain Club will fete all mothers of the Club, with a special buffet from 1:00 to 9:00 p.m. As a special tribute to mothers will be presented to the youngest and oldest Mother and Grandmother at 2:00 p.m.

Tom and Jean Colby, owners of the exclusive Lazy H. Sky Ranch Club, spent last week-end at Palm Desert. ## "SHE CHOSE THE BEST WAY TO INSURE A HAPPY AND PROSPEROUS FUTURE!"

Mrs. Floyd V. Daniel of Desert Hot Springs, who recently won the \$20,000 cash award from General Mills for her slogan on why she likes Betty Crocker's Stir-N-Roll recipes, is not only an expert cook but a strong advocate of economy and thrift.

PICTURED ABOVE IS MRS. DANIEL HANDING HER \$20,000 CHECK TO BILL SMITH OF THE COACHELLA VALLEY SAVINGS AND LOAN ASSOCIATION FOR DEPOSIT TO HER SAVINGS, WHERE IT WILL CURRENTLY EARN HER 3% PER ANNUM.

She came to the Savings and Loan office where she has been a customer for some time. She said she wanted Mr. Smith to be one of the first to know that one of his savers had won \$20,000 in cash. With considerable pride she handed Bill the check, asking him to give her enough out of it to pay her Federal Tax and place the rest in her account.

Mrs. Daniel is only one of the many customers who appreciate the advantages of a Savings and Loan Association Account.

She knows that it is A SAFE AND SOUND FINANCIAL INSTITUTION where the rate of return is the highest commensurate with sound business management and where her funds are always available when needed. She has no worry about losing her investment as her account is insured by an Instrumentality of the United States Government to \$10,000. By having two accounts, she and Mr. Daniel are FULLY INSURED AGAINST LOSS on this sizeable sum.

BILL SMITH SAYS: "CONGRATULATIONS, MRS. DANIEL AND MAY YOU WIN MANY MORE SUCH AWARDS."

## L. A. Publisher Says Asia Key to Prosperity

Manchester Boddy Says Orient Can Take Our Goods

Vacationing briefly at the Desert Inn last week was Manchester Boddy, publisher of the Los Angeles Daily News and for many years a Palm Springs winter visitor. An international thinker, Boddy sees the present era of defense spending followed by one of tremendous prosperity for the Pacific Coast if trade relations can be established with Asia.

"ASIA," HE SAID "is the last economic vacuum. It has been sleeping during the tremendous production period which has taken place in recent years. A sleeping customer doesn't buy anything but there is evidence today that the customer is awake. Asia could absorb the goods from our assembly lines for the next 50 years."

"It is my judgment," Boddy continued, "that Russia's major offensive will be in Asia and it will be an economic one. I would estimate the crisis between June and November."

"Russia's secret weapon is the ruble block. She will try to win Japan and industrial Europe by offering great trade concessions in Asia, which will win for her, what she expected to win by war. Japan must have trade with the mainland or die. Russia is offering her iron ore at \$10 per ton, while our price is \$22.50 per ton."

ASKED IF the United States would fight to secure Asia's rich market, Boddy said he thought not. "I do not believe we will assume the offensive. The control of Asia rests in China, our problem is to see that China does not fall into the power of Russia."

Since he took over publication of the Daily News in 1925, Boddy has been a strong advocate of closer relations between the Pacific Coast and the Orient, and is a recognized authority in this international field. He tempers the rigors of publishing Los Angeles' youngest newspaper with being a camellia farmer on his estate at La Canada.

## Announce Two New Officers for Savings and Loan

President Bill Smith of Coachella Valley Savings and Loan association announced last week that R. W. Blackburn, of Thermal, long prominent in Coachella Valley affairs, has been named a director of the institution. He succeeds Chester A. Spary who resigned as he is leaving Indio for a long trip.

President Smith also announced appointment of Elmer Wahlberg as secretary of the CV Savings and Loan. Wahlberg succeeds Lucien Shaw, who resigned as secretary after accepting a position in Los Angeles as legal representative of a large corporation there.

It was the club's final meeting of the year.

## Suit Over Exploding Bottle Won by Village Market

Herman Reich, proprietor of the Village Market, the Canada Dry corporation and the Owens-Illinois Glass company of Illinois, were absolved of blame in a \$50,000 damage suit brought against them by Mrs. Ernest Pagano of Palm Springs and Hollywood.

Mrs. Pagano sued the local market and the two corporations seeking damages for injuries and nervous shock suffered, she contended, when a carbonated soft drink bottle exploded in her hand.

Mrs. Pagano is the wife of the prominent film director and their local home is at 1228 San

Lorenzo road. Pagano is now in Europe, directing motion pictures.

Twelve women made up the jury and it took them only a few minutes to return their verdict for the defendants. The trial, however, had taken seven days and was heard before Judge Clarence Kincaid in the Indio branch of superior court.

Lucien Shaw was attorney for Mrs. Pagano while Saul Ruskin represented the Village Market, Robert Allen of Thompson and Colegate appeared for Canada Dry and John Neblett, former district attorney, for the Owens-Illinois company.

## Sunset House to be Completed by Fall, Prediction

Work is expected to start this month on remodeling and completing of Sunset House, long a subject of controversy before city council.

Walter Glatter of Palm Springs head of the investment firm which in March purchased the uncompleted building, from George Caprol of Long Beach, made the announcement this week on plans for completion of the structure.

HE SAID CONTRACTS had been let to complete the structure as an office and apartment building.

It will be known as Sunset Tower and Glatter said it would open in the Fall at the same time the remodelled El Mirador hotel does.

Present investment in Sunset Tower is approximately \$500,000 and Glatter said it will represent more than one million when it is completed.

COUNCIL LAST WEEK granted Glatter's request that an abatement suit against the structure be dropped. The city had filed the suit to force completion or demolition of the building as its unfinished state had brought frequent complaints that it was an "eyesore."

"It will be just the opposite by Fall," said the new owners. Associated with Glatter are A. W. Samish and Harry Help, both of San Francisco.

Arthur Wright of the Village will supervise construction and local sub-contractors will be employed. Glatter said. William Cody of Palm Springs is one of the architects who designed the remodeling plans.

## Manhattans

Our Kind Meet Her Approval

Palm Springs Manhattans must be pretty good, judging from stories in Los Angeles dailies last week in the divorce trial of Dr. Peter L. Hoffman who is suing his wife, Claire James, film actress in Superior Judge Louis H. Burke's court.

According to Dr. Hoffman's testimony he brought Miss James to Palm Springs after their marriage in Tijuana, Mex., for the holidays in 1950 and she set some sort of a record in drinking Manhattans while here. The first place visited she drank six and then moved on to the second spot where she drank another six without any dinner, the doctor testified. Two are considered par for the evening.

On the second night on the town, she drank eight in the first place visited and another eight in the second stop again without any dinner. Her two day score was 24 above par for the Palm Springs night club course.

## Didn't Look

George Strebe Admits Ticket

George Strebe, of Doll House fame, was given a ticket in Phoenix last week. But that's not what made him sad.

It was the fact that the police car overhauled him in his new Cad-Aillard racing car.

"Guess I wasn't using my rear-vision mirror," he told local friends describing the incident.

## Chief Kettmann Tells Indio Club of Juvenile Dope Use

Chief of Police A. G. Kettmann Palm Springs, was the speaker before Indio Rotarians last week, continuing his campaign against use of narcotics by juveniles.

Chief Kettmann said that juveniles are being more and more exposed to narcotics and urged stiffer penalties for persons convicted of selling, supplying or urging youths to use narcotics.

HE SUGGESTED making the penalties so severe that known "drug pushers" will become afraid to peddle the drugs.

"A person who offers a juvenile a marijuana cigarette is doing that youth a great wrong," the chief said, describing the steps from marijuana through the deadlier drugs to heroin.

"When they have reached that stage there is practically no

hope for rehabilitation," he said.

THE CHIEF SAID that more emphasis should be placed on outlining the dangers of that first smoke, usually taken for the kick. Closer cooperation between schools, parents and police was urged as a means to stamping out the evil.

Describing the growth of the menace, Chief Kettmann said that in 1941 there was one arrest in the state of a juvenile drug addict. In 1951, 271 juveniles were arrested in connection with the drug habit.

Use of narcotics is a direct cause of crime the chief concluded.

## Work on Budget for City Begun

Department heads of the city government this week were preparing their budgets for the 1952-53 fiscal year following receipt of forms from City Manager Russell Rink's office.

Rink said that all department heads had been urged to trim all nonessentials as the aim of city council is to "hold the line" in the tax rate for the new year. Budget hearings will start in June, he said.

## Kyle Memorial Unveiling Sunday

The memorial being erected in Sunair Park honoring the living Professor James Kyle will be unveiled next Sunday morning at 10 a.m. Appropriate ceremonies sponsored by Cathedral City's three civic organizations, Chamber of Commerce, Woman's club and Lions club will be held. Professor Kyle was for many years professor of Greek at Redlands University. He has made his winter home in Cathedral City since 1942. Being imbued with the feeling for beauty of the ancient Greeks through his studies and life work, Professor Kyle was one of the moving spirits in the building of Redlands beautiful park at the west entrance to that city. It is particularly fitting that Uno Palo Kangas the noted sculptor, who has designed and executed the memorial is of Greek ancestry.

Since coming to Cathedral City Professor Kyle has taken an active part in all community betterment and beautification projects and almost single handedly took care of the tree planting in the Park. The town's numbering system was installed by Professor Kyle and he served for many years as a director of the Chamber of Commerce and is now an ex-officio life member of the board Chamber of Commerce president Edward Biles, Lions president John Danchak and Woman's Club president Alphamay Larrison have joined in

Cathedral City community Church celebrated its 10th birthday last Sunday with special services commemorating the occasion. Rev. Hunter told of the steady growth of the church, reading the names of the charter members. Mrs. Robert DaVall, one of the charter members, told of the first meetings of the church, reading from her diary little homey passages telling of the pot luck supper which was the first meeting to discuss the forming of a church. Church meetings were first held in the homes of the various members, then later in the Town Hall, which was the meeting place until the building of the church at its present location on Cathedral Canyon Drive.

## Mrs. Holderman Outlines History of Health Center

A "handclasp" rather than a "hand-out" is the thinking behind Palm Springs Welfare and Friendly Aid association.

That was the theme of Mrs. Madge Holderman, public health nurse, in outlining the history and aims of the Palm Springs Health Center before the new board and members at the Health Center, one of the projects of the group, at a recent meeting.

The association, an outgrowth of the Friendly Aid Society of the Welfare section of the Women's club sponsor the Health

Center which opened its doors here in September 1942.

ORIGINALLY CONCEIVED as a clinic for emergency and possible medical care, its functions have broadened as a place for health education and friendly aid and a location for county health services, who maintain a public health nurse and man all public health clinics.

These clinics are, once weekly venereal disease clinic, monthly pre-natal clinic and Well Baby conference, chest clinics when- ever indicated by chest specialist in attendance.

IN ADDITION the Center functions in welfare aid interviewing patients and people with personal problems, inquiries on county business, sanitary problems, information regarding boarding homes, eligibility for county help, commitment proceedings for alcoholic and mental cases.

The Center is used by the

County Welfare worker oneits day a week interviewing applicants for county aid, old age pensions and aid to needy children. The American Red Cross holds its monthly meetings and their house service files are located here.

WELFARE AND FRIENDLY Aid association functions locally and when any need does not come under other agencies they take on the handling. This ranges from on order of groceries to a medical prescription that may be temporarily needed by a local needy person.

Should the problem become more extensive and of an emergency nature with cash expenditures, members of the association are called upon to approve. Extended services include the supplying of cod liver oil, and vitamin tablets to low income groups and milk orders in certain needy cases. School lunches are provided for needy children and there are many children and adults who owe their present state of good health to this truly friendly aid.

## "Grow in Grace" to be Subject of Dr. Blackstone

Dr. James H. Blackstone, Jr., will preach on the theme, "Growing in Grace" at the 11 a.m. service at Community church Sunday, he said this week.

"The sermon will be based on the text 'But grow in grace and the knowledge of Jesus Christ,' " he said.

The chancel choir will be heard in the sacred anthem, "To Thee, O Lord," Harry J. Tomlinson, musical director, will conduct the choir.

Special guests at the morning service will be a group of adults from the Homebuilders Class of the Hollywood First Presbyterian church. They will spend the weekend in the Village.

Mrs. Kare Wilhelmsen, who recently returned from her missionary work in India on a furlough, will tell of her experiences in that land at the 7:30 p.m. service. She will illustrate her talk with colored slides.

Other services at Community church Sunday include Sunday school at 9:45 a.m. and Junior and High Christian Endeavor societies at 6:15 p.m. The two societies will meet together this Sunday to hear the Rev. W. R. Wyse and his Negro chorus.

## Science Church Open All Year

First Church of Christ, Scientist, Palm Springs announces services will be held during the entire year. On Sundays, May 4, services will be resumed at the church building, located at 271 Ocotilla avenue.

The Christian Science reading room, located in The Center, also will remain open throughout the summer. The public is cordially invited to attend services and to use the Reading Room, it was announced.

### HOW TO OVERCOME SUFFERING FROM SIN TOLD IN LESSON

Deliverance from sin and its effects is available for all who turn from it to God, according to the Lesson-Sermon on the topic, "Everlasting Punishment" in all Christian Science churches.

The Golden Text is from Romans (6:16), "Know ye not, that to whom ye yield yourselves servants to obey, His servants ye are to whom ye obey; whether of sin unto death, or of obedience unto righteousness?"

A Scriptural passage from John (5:5-9, 14) records the healing of a man "which had an infirmity thirty and eight years." Jesus said unto him, "Wilt thou be made whole? The impotent man answered him, Sir, I have no man, when the water is troubled, to put me into the pool: . . . Jesus saith unto him, Rise, take up thy bed, and walk. And immediately the man was made whole, and took up his bed, and walked: . . . Afterward Jesus findeth him in the temple, and said unto him, Behold, thou art made whole; sin no more, lest a worse thing come unto thee."

"The fear of disease and the love of sin are the sources of man's enslavement," declares Mary Baker Eddy in "Science and Health with Key to the Scriptures." Again she says, "Healing the sick and reforming the sinner are one and the same thing in Christian Science. Both cures require the same method and are inseparable in Truth." (pp. 373, 404).

"Present world conditions demand a better understanding of the Bible than ever before. Men and women from every walk and station in life should be spending much time in a careful study of God's Word. This world today—needs to know the will of God—and the Bible is the only source book to which we can go," he added.

Two auctions and a sold-out supply of food contributed substantially to the maintenance fund of Boys Club last week at World Wars Memorial Hall.

George Oliver, chairman of a Lions club committee sponsoring the affair, said that if a few more people had turned out they would have been forced to turn them down.

# MERCURY BEATS ALL COMERS IN MOBILGAS ECONOMY RUN

## 3 WINS IN 3 YEARS!

**GRUELING**  
1,415-MILE  
TEST

**AAA**  
APPROVED

What a test to prove Mercury and Lincoln superiority! This year's Mobilgas Economy Run covers 1,415 miles from Los Angeles to Sun Valley, Idaho. This longest and toughest test extends from below sea level in Death Valley to 8,010 feet in Arizona mountains. Mercury outperformed all others to win both the grand Sweepstakes prize and Class C 1st place. Lincoln won Class G.

### Lincoln Again Best in Class — Runs Second in Sweepstakes

Now look at Mercury's three-year-in-a-row record in the Mobilgas Economy Run: three out of three times winner in its price class; two out of three times Sweepstakes winner against all cars in every class! Look at Lincoln, too. Lincoln won Class G first prize and provided Mercury's closest competition for top Sweepstakes honors.

The Mobilgas Economy Run is open to all cars of every make. To assure an equal chance for all, regardless of size and weight, ton-miles-per-gallon performance\* determines the winner.

A 1952 Mercury Monterey Special Custom Sedan with optional overdrive swept the field with 59,718 ton-miles-per-gallon, averaging 25.4093 miles per gallon. And the engine that did it is Mercury's famous V-8. The Lincoln Capri Sedan with Hydra-Matic transmission won its class prize with 58,908 ton-miles-per-gallon, averaging 22.3562 miles per gallon.

Right now, in our showroom, is a 1952 Mercury similar to the one that won this official, impartial test. Why not stop around and give it a try? No obligation, of course.

\*Ton-miles-per-gallon equals the car weight (with passengers), multiplied by miles travelled, divided by gallons of gasoline used.

### I rise— ---TO REMARK

By JOHN PHILLIPS

The 82nd Congress, whatever else may be said about it, will undoubtedly establish one record before it adjourns. I have not checked all previous Congresses, but this surely will be the "investigatingest" one in history.

Since we convened on January 3rd, 1951, I have a record of 225 separate investigations, beyond the routine of legislative or appropriation work. Looking over the list, I observe a few omissions. In addition, there would be routine investigations of problems arising in hearings, or from information furnished.

At least 50 of these special investigations are still going on. The question immediately arises: are they worth what they cost the taxpayers, which will be about \$4,000,000 for this Congress? Yes, I think they are. Practically all the exposures of graft, corruption, favoritism, waste, duplication, and outright subversive activities, have come from such investigations. Even where no direct result can be indicated, these investigations have helped committee decisions and individual efforts in the transaction of legislative business. Usually they save many, many times the money spent.

A QUICK RUN-DOWN of the current investigations will give some idea of our problems: The committee on AGRICULTURE is looking into crop reporting. Incidentally, we have just had an example of this in connection with flax, which suggests some change in methods.

The committee on ARMED SERVICES is investigating the wartime death in Italy of Major Holohan. You read about it in the papers. That committee is also checking wastes in military procurement, and its findings may well save us several billion dollars a year. It is investigating manpower wastes in the defense departments. Under the committee on BANKING AND CURRENCY, investigations are going on concerning housing loans, and the Export-Import Bank. The committee on EXPENDITURES IN THE EXECUTIVE DEPARTMENTS (which is primarily an investigating commit-

tee, to follow-up money we appropriate) is currently looking into our relations with international organizations; into Federal supply management, and into the construction of certain airfield bases. The committee on FOREIGN AFFAIRS is investigating other foreign aid programs, the Point-4 program (which is a constructive program, and which we do not want to go the way UNRRA went and towards which UNESCO appears to be heading), and the U. S. Information Service ("Voice of America")—which can well bear investigation.

The committee on JUDICIARY is investigating the Department of Justice, and seems to be getting results. We voted last week to investigate the Wage Stabilization Board. The committee on UN-AMERICAN ACTIVITIES has been looking into communist infiltrations, including Hollywood. It is also working on the Sarge spy case.

The committee on WAYS AND MEANS is working on overlapping taxes, and on corruption in the Bureau of Internal Revenue. We have "Select Committees" (which means special committees) on the Katyn Massacre; on the impact of the war on small business; on chemicals in foods (which I helped set up); on grain storage shortages, and on abuses in the GI education program.

MY SUBCOMMITTEE is looking into the TVA coal contracts, informally, with the thought of recommending an investigation, and into the somewhat profitable contracts the Atomic Energy Commission is writing, and I do not mean profitable to the taxpayers.

In addition to these, the Senate has a dozen or more investigations going on, including grain storage, the construction of the North Africa air bases, crime in the District of Columbia, the sales of surplus tankers, lawyers and Indian claims, the Institute of Pacific Relations, and whether some senators spent too much to get elected.

That's only a few. The interesting fact, to me at least, is that this, from the creation of the Republic, has been a part of the job of the Congress, in a representative government. I hope that the results live up to past records.

## Would Include All Palm Oases in Park System

Inclusion of all Palm oases on the northeast rim of Coachella Valley into the state park system will be recommended by William Kenyon, superintendent, park division, to the Division of Parks and Beaches, he said Sunday after a tour of the desert area.

He added that Riverside county should launch studies and set up a master plan incorporating these spots in the state park system.

**PAINTED, BOX** and Hidden Springs canyons were studied by Kenyon along with many others and these three he will recommend as part of the state system.

Kenyon was accompanied by Homer Varner, fourth district supervisor, Lyle Howard of the Coachella Valley Advisory Planning committee park and recreation chairman and William Hayes, USC student studying desert geology.

Kenyon said he would submit his report to Newton B. Drury, division chief, for immediate action.

**WORK WILL BEGIN** July 1, Kenyon said, on development of Salton Sea state park for which the legislature has appropriated \$123,700. Total cost of the park at Salton Sea is expected to exceed \$350,000.

With Varner, Kenyon also visited Curtis, Biskra, Hidden, Pushawalla, Thousand Palms and Willis Palms oases.

Kenyon envisioned a park system that would include all of the palm oases along the northern rim of the desert and said that he believed the state would have little trouble in acquiring the lands.

## City Granted Continuance in Writ Case

Redistricting Suit to be Aired on Thursday, May 22

Appearing before Superior Judge O. K. Morton in county court last Friday, City Attorney Roy W. Colegate asked and was granted a continuance in the redistricting suit against the city until May 22.

The hearing was on the writ of mandamus obtained a week earlier by Attorney Leonard Bock of Palm Springs ordering the city to call an election on the redistricting plan or show cause. The writ was returnable Friday.

FIVE VILLAGE persons were represented by Attorney Bock in his petition for the writ—Sal Allessandro, F. D. Blotter, Fred Swedehjelm, Don Seiler and Joseph Palozzi. They are all members of the Junior Chamber of Commerce but declared they were acting as individuals.

Bock said after the continuance was granted in Judge Morton's court that the delay would preclude any possibility of getting the election on the June 3 ballot but that it would be placed on the November ballot if the court's decision was favorable.

JERRY BUNKER, assistant city attorney, who said the city had filed a demurrer to the writ, said that a special election would cost \$500 and that it would require a three-fourth majority to carry. On file with City Clerk Louise McCann is the petition for the reelection containing 562 qualified names, more than enough to call a special election.

New Bridegrooms to be Smacked

This should tempt the bachelors! George Strebe, owner of the Doll House, announced a new custom for that spot.

Strebe says the marriage business is picking up in town.

## Seek Closer Cooperation Between Schools and Police

Last week's quarterly conference of the Southern California Juvenile Officers' association, held at the Tennis club and attended by the association's board of directors, was presided over by Lieutenant John England of the Los Angeles Police department's Juvenile division.

Highlights of the conference were discussions on close cooperation between schools and juvenile officers and efforts to extend additional legislation to cope with the juvenile problems throughout the State. One of the prime causes of the juvenile problems which is on the increase is narcotics and liquor. Stringent laws and law enforcement is planned in an attempt to stamp out these conditions.

Sergeant Campbell of the Ju-

venile department of Long Beach Police is the nominee for the coming year's presidency of the association with elections to be held in May at the association's meeting at the Los Angeles Police Academy.

Some 35 members of the association were in attendance here with Chief Gus Kettmann and Officer Ted Green, juvenile officer of the Palm Springs Police department acting as hosts to the conference.

### At Bank Meeting

O. A. Torgerson, president of the Desert Bank, attended the April meeting of the Independent Bankers association in Los Angeles last week when a panel discussion on interest rates was held.

## Low-Cost Home Project Planned Adjoining Village

Palm Springs Country Club Estates, largest subdivision in the Palm Springs area, has been purchased by a group headed by Jack Silverman, William Minkoff, and local realtor, Peter B. Sheptenko, who handled the transaction for the buyers and the seller, John M. Stahl, of Los Angeles.

Sheptenko, as well as being a partner in the purchase of the property will be the exclusive selling agent. The group is making plans for a large low-cost housing project which they expect to get underway in the very near future. The tract adjoins

the Palm Springs Airport and consists of two hundred and fifty half-acre lots.

Several local builders who realize the need of low-cost housing in this area have already contacted Sheptenko, he said, with the idea of getting twenty or thirty houses under way this summer for next season's occupancy.

It took a rugged constitution and lots of luck to live to a ripe old age back in medieval times. Barbers were the surgeons of the day...and they were long on primitive surgery and short on diagnosis. Blood-letting was their favorite cure for every ill. Modern medical science has come a long way since the day of the medieval barber. Diagnosis—thanks to electricity—no longer is a matter of guesswork. The X-ray, the fluoroscope, the electrocardiogram have eliminated the guesswork from medical diagnosis. Electricity, in addition to turning the wheels of industry and lighting, heating and running the home, is making an important contribution toward increasing the life span of men, women, and children.
